

Big Chill Coming for Small HVAC Manufacturers? Not Necessarily! **Your Equipment - Smarter**

The Benefits

- **“Smart HVAC in a Box”:** Why start the difficult journey of making your equipment smarter from scratch when we can speed the process and reduce costs.
- **Reduced Costs:** Wireless decreases installation labor and materials.
- **Predictive Maintenance:** Get ahead of potentially expensive repairs through real time data analytics.
- **Shorter Service Calls:** Remote data access means technicians save diagnostic time.
- **Stay Competitive:** Comprehensive feature set expands project opportunities.

Industry Giants Freezing Your Company Out Of Projects? Embrace Innovation Before Becoming Vulnerable to Extinction!

INDEPENDENT

Proprietary Encrypted Communication: Stand alone, proprietary encryption eliminates additional system vulnerabilities vs connecting to WIFI.

EASY

Minimal wiring, and associated labor, means lower installation and reduced ongoing maintenance costs. Line-of-sight is not required for installation, reducing complexity and setup time.
